

Pre·valuate[®] Online

Take the guesswork out of the candidate review process. Pre-valuate Online will accurately identify an individual's strengths and weaknesses. Verify your candidate's skill level before making your decision. Hundreds of evaluation titles available.

Minimum Technical Requirements:

PC Users:

Windows 98, 2000, XP or Vista
Internet Explorer or Firefox
JVM (Java Virtual Machine)
56k connection/DSL recommended
1024 x 768 screen resolution

MAC Users:

OSX (Panther or Tiger)
Safari browser
JVM (Java Virtual Machine)
56k connection/DSL recommended
1024 X 768 screen resolution

Pre-valuate Online testing delivers high quality, validated content, utilizing the latest technology to provide you a secure, centralized database, streamlined and intuitive administration features. Our robust reporting and organization tools give you the flexibility to organize and test candidates in person or with a personalized e-mail invitation.

Pre-valuate Online is firewall friendly and Java compatible. It will integrate with most ATS programs. Use of Unix firewall proxy servers, SSL certification and a state-of-the-art intrusion detection system insures the confidentiality of your data.

You receive access to our entire library of assessments; covering accounting, clerical, legal, medical and software skills. Technical support (FAQ, e-mail and phone), documentation, administrator orientation/training, evaluation title upgrades (and any new titles created for the year) are all included in one low annual subscription rate. Per-test rates are also available.

We also offer personalized consultation, customized test content, co-branded portal entry, automated ATS integration, and in-depth data analysis. Call us for a quote on these specialized services!
